

# I Survived.

My story is simple. I was diagnosed with **BREAST CANCER** two years ago. The first thing that went through my mind was "I'm not going to see my daughter graduate high school." But I beat the odds. The experience and compassionate care of the physicians at Midwest Center for Hematology/Oncology helped me survive. Now I've got my life back.

Midwest Center for  
**Hematology/Oncology, SC**  
*Cancer Care with Compassion.*
